

Survey participants and drop outs

Below you can find a survey of the numbers of participants and drop outs from the beginning of the Four Days Marches in 1909. Unfortunately, it is impossible to reconstruct the exact data of the first years. However the figures (for the years 1909 up until 1956) give a reasonable indication of the real figures.

Year	Signed in	Not started / drop out on day 1	Not started / drop out on day 2	Not started / drop out on day 3	Not started / drop out on day 4	Not started / drop out total	Finished	Drop out %
